

CAPA

CHILD ABUSE PREVENTION ASSOCIATION

2025 Impact Report

With GRATITUDE

As we reflect on 2025, we are filled with gratitude for the continued growth, resilience, and impact made possible through our shared commitment to children and families in our community. Last year has brought both meaningful progress and ongoing challenges, and we are deeply thankful for the steadfast support of our staff, volunteers, donors, partners, and advocates who make our work possible each day.

In a child welfare landscape that continues to shift and evolve, CAPA remained a constant source of safety, prevention, and care. In 2025, 25 children found stability and healing within the Open Arms Children's Home, while 65 children were supported through CAPA foster homes. We received 6,567 requests for placement—an urgent reminder of the growing need for safe, nurturing environments—and responded to 24 disclosures of abuse from children, ensuring their voices were heard and acted upon.

Prevention remains at the heart of our mission. Last year, 16,931 children were reached through school-based outreach programs, equipping them with knowledge and tools to stay safe. We celebrated 67 parents who graduated from our parenting classes, strengthening families and building brighter futures. Additionally, 195 Cribs for Kids classes were provided, helping ensure safer beginnings for infants across our community. Through our in-home visitation program, 546 visits offered guidance, encouragement, and connection to families when they needed it most.

We are also proud to have completed our first grant year of Triple P in Spanish, expanding access to critical parenting resources and reaching more families in meaningful and culturally responsive ways.

Community support continues to be a cornerstone of our success. Dancing with Our Stars once again served as a foundational and inspiring force in our fundraising efforts, bringing people together year after year in support of CAPA's mission. Our thrift store also performed exceptionally well, generating vital resources that allowed us to further invest in and grow our prevention programming.

Last year, we were honored to receive a Major Impact Grant from the Wexford Foundation, which allowed us to refresh the Open Arms Children's Home with new furniture, updated blinds, and fresh interior and exterior paint—creating a more welcoming and comfortable space for the children in our care.

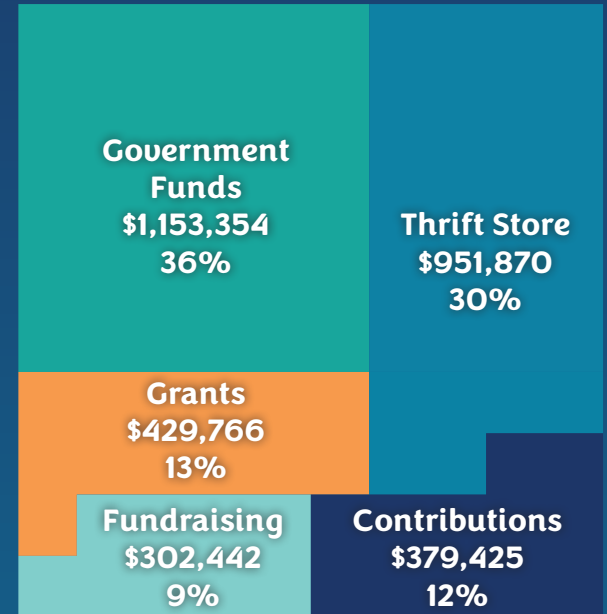

At CAPA, we remain steadfast in our belief that safe, supported childhoods lay the foundation for strong, healthy communities. Every child we reach, every family we support, and every life we touch contributes to a future where children can thrive and families can flourish.

Thank you for standing with us and for your continued commitment to protecting children, strengthening families, and building a brighter tomorrow. Together, we are making a lasting difference.

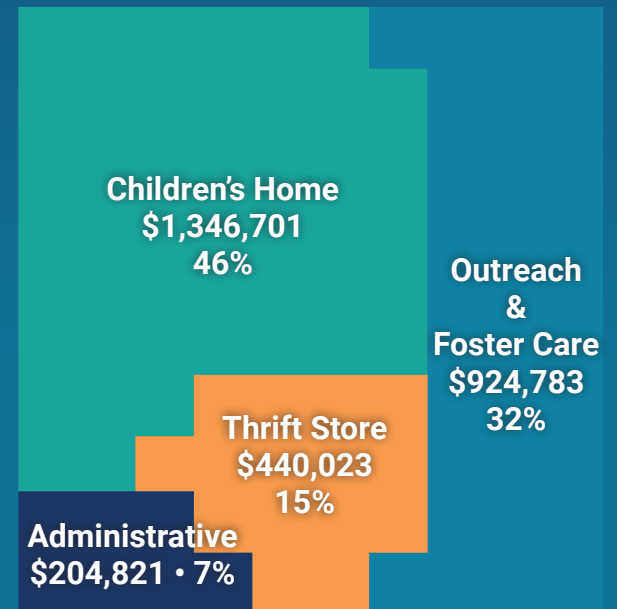

With heartfelt appreciation,
Christina Wilson
Executive Director

“I think the CAPA lessons are very fun and educational for all the kids in the world ages 5-17

to know how to be treated

or what to do if they're treated badly by adults or kids. It helps KIDS!”

– 5TH Grader

PREVENTION

School-Based OUTREACH

Over the summer, Mikayla Middleton joined CAPA's School-Based Outreach Team as an Outreach Specialist. In her first six months, she delivered numerous Erin's Law and Gavin's Law-aligned lessons to elementary and middle school students across Beaufort and Jasper Counties. When reflecting on a meaningful moment in her work, Mikayla recalled an experience in which a student felt empowered to disclose abuse following one of her lessons.

After facilitating a sixth-grade lesson to an all-female group, one student quietly approached her after the others had left and asked, "Would it be okay if something happened, but I didn't tell a safe adult?" The question was heavy, but Mikayla remained grounded in her role. She reassured the student, emphasizing what had been shared during the lesson—that abuse is never the child's fault and it is never too late to tell a safe adult.

With the support of her supervisor, Mikayla fulfilled her responsibilities as a mandated reporter by making a report to law enforcement and collaborating with the school social worker to ensure the student received appropriate support.

This experience reinforced the importance of CAPA's prevention work. Even early in her role, Mikayla witnessed how creating a safe and trusting environment can empower children to seek help—and how critical it is to respond with care, confidence, and compassion.

"I learned not to go online and meet with people I have not met in real life."

**- 4TH
GRADER**

“All the parents in the classes are so supportive. I was not excited to be in the parenting program but I am so glad I was. Angela and April made us all feel welcomed and gave us confidence in being consistent -

there is hope for me and my family.”

PREVENTION

Triple P POSITIVE Parenting Program

Ana Ramirez

CAPA identified a critical gap in services for Spanish-speaking families due to language barriers and a lack of bilingual facilitators. To address this need, CAPA partnered with longtime community advocate Ana Ramirez, who completed specialized training and became an accredited Triple P Level 4 Group Facilitator—a program proven to strengthen parenting skills and improve outcomes for children.

Despite challenges, including a decline in referrals, Ana successfully engaged 10 Spanish-speaking parents. Eight participants completed the program, demonstrating meaningful growth in confidence, parenting strategies, and their ability to effectively respond to their children's behaviors, particularly during the tween and teen years.

While participation numbers were modest, the impact was significant. CAPA remains committed to expanding access to services for Spanish-speaking families in 2026, ensuring that language is never a barrier to prevention, empowerment, or strong family relationships.

67 parents completed the program and **97% IMPROVED** their parenting practices and behaviors.

Of the 87 parents who enrolled in the program, 77% completed the program.

The Scott Family

Families often come to CAPA during some of their most challenging moments, and for the Scott family, that moment felt overwhelming. As a blended family with seven children ranging in age from 2 to 17, they were navigating complex family dynamics and significant behavioral challenges, particularly among the older children. At one point, all five of the older children had been placed in separate kinship care homes, leaving the parents feeling defeated, frustrated, and uncertain that anything could help.

Through CAPA's Triple P Positive Parenting Program, the parents began to reflect on their approach to parenting. They recognized that many of the strategies they relied on were based on how they themselves had been raised—methods that were no longer effective for their family. With guidance and support, they learned new techniques centered on communication, connection, and positive discipline.

During visitations, the parents practiced these new skills—speaking calmly, maintaining eye contact, and actively listening to their children. These intentional changes began to shift family interactions, improving communication and helping to rebuild trust.

While still participating in the program, the family reached a significant milestone: reunification. This allowed the parents to apply their new skills in their daily lives. By using natural and logical consequences, offering descriptive praise, and prioritizing quality time together, they began to see meaningful improvements in their children's behavior and the overall family environment.

Today, the family describes their home as more connected, peaceful, and hopeful. What once felt uncertain has been replaced with confidence, stability, and a renewed sense of possibility.

“I am totally grateful

that you have been with me all these months supporting me. And very difficult times I just want to thank you and that I am totally grateful and I thank you. God put good people like you on my way.”

PREVENTION

47 FAMILIES

participated with
111 children for 2025.

Family Aides conducted
546 home visits.

For the year of 2025 FAs
traveled a total of 6,372 miles
to reach families throughout
Beaufort, Jasper, and
Hampton counties.

Exchange Parent AIDE

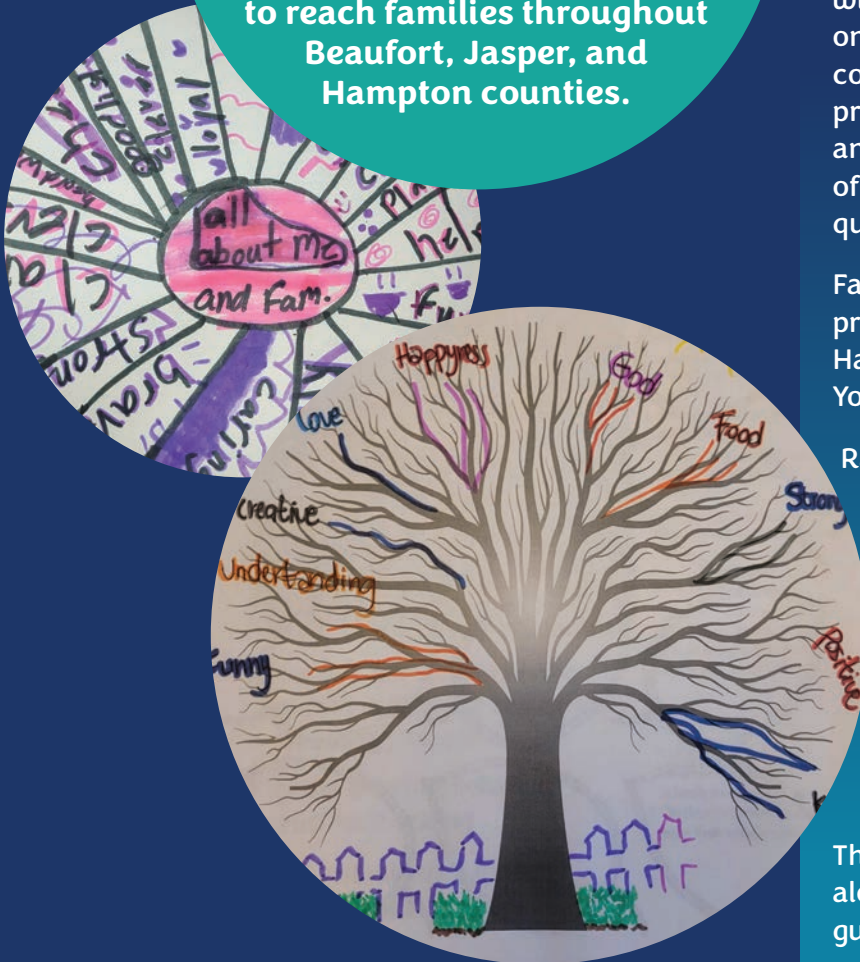

The Exchange Parent Aide Program experienced a year of meaningful growth and impact. The program provided weekly home visits to 47 families, supporting 111 children across Beaufort, Jasper, and Hampton counties, and completing 546 home visits.

Through these visits, trained Family Aides partner with families to develop individualized goals focused on strengthening family functioning, improving communication, building resources, and enhancing protective factors. This growth in both families served and visits completed was supported by the addition of Haley Ortt, CAPA's newest Family Aide, who has quickly become an integral part of the team.

Families consistently shared positive feedback about the program. One parent expressed their appreciation of Haley, saying, "Thank you for being a light in this world. Your personality and professionalism are so wonderful."

Rachel, CAPA's Family Services Coordinator, also supported a family navigating multiple DSS cases during a particularly difficult period when their daughter entered foster care. Through consistent guidance, advocacy, and connection to services, Rachel supported the mother as she worked to strengthen her parenting skills and meet reunification goals. Her dedication and perseverance ultimately led to the successful reunification of the family, highlighting the power of compassionate, consistent support.

The Exchange Parent Aide Program continues to walk alongside families, providing encouragement, tools, and guidance to help them build healthier, more stable futures.

“I loved everything about it. **Class was informational** and I loved meeting with you all.”

PREVENTION

ABCs for Safe Sleep

Alone

Babies should sleep in their own designated space, not in a bed with parents, siblings, or pets, to prevent suffocation. While they should sleep alone, they should sleep in the same room as a caregiver for at least the first six months.

Back

Infants should always be placed on their back to sleep. Sleeping on the tummy or side increases the risk of suffocation.

Crib

A baby should sleep in a safety-approved crib, bassinet, or pack-and-play. The mattress must be firm and flat, covered only by a tight-fitting sheet.

CRIBS for Kids

This past year, CAPA's Cribs for Kids program achieved significant growth, doubling the number of free portable cribs distributed to expectant parents who participated in safe sleep education classes.

Families consistently shared how impactful the program has been. One parent noted, "The class was very informative, and I loved meeting with you all," while another shared, "Great program—I would recommend it to any expecting mother I know."

These stories reflect not only an increase in reach, but also the trust and confidence parents gain through education and support. Continued collaboration with community partners, including PASOs, has been essential in expanding access to Spanish-speaking families throughout the Lowcountry, ensuring that more infants have a safe place to sleep.

“CAPA was my home.”

I had so much love and I felt safe and everyone supported me. I miss my CAPA family and all my CAPA moms.”

– Erica

Open Arms Children's HOME

When Kate arrived at the Open Arms Children's Home she carried deep trauma from an abusive adoptive placement and the pain of repeated rejection. Trusting adults and forming relationships felt nearly impossible, and with no known family connections beyond her adoptive mother, she felt profoundly alone.

During her time at Open Arms, Kate shared that she believed she had a grandmother in Florida but could not remember her name. Despite extensive efforts by staff and DSS, no information could be located. Then, unexpectedly, her grandmother found her. After learning that Kate was in foster care, she reached out through DSS, hoping her message would reach the right person.

When Kate was finally able to speak with her grandmother, the joy on both sides was immediate and overwhelming. From that moment forward, their relationship began to grow. Her grandparents visited regularly, attended Family Engagement events, and welcomed her into their home during holidays. Through consistent love and presence, they helped Kate rebuild her sense of family and belonging.

In time, Kate—who once said she never wanted to live with anyone new again—asked if she could live with her grandparents. Today, she is on the path to permanent placement with them, surrounded by love, stability, and the support of both her CAPA family and the family she once thought she had lost forever.

“To me, being a foster parent is a calling to love unconditionally and stand in the gap for a child **when they need it the most.**”

Resource FAMILY Foster Care

A newborn baby girl entered the world already facing significant challenges. Born with substances in her system, she began life in withdrawal, requiring immediate care, comfort, and stability. Despite these early obstacles, she demonstrated remarkable strength from the very beginning.

At just 11 days old, still unnamed and medically fragile, she was placed in a foster home where she was welcomed with compassion and unwavering care. Her foster family committed themselves fully to her healing, providing patience, consistency, and love as she navigated withdrawal. They actively sought out services to support her development and celebrated every milestone along the way.

Through their dedication, she grew stronger, healthier, and more secure. Over time, she overcame the physical effects of withdrawal and flourished emotionally and developmentally, each day reflecting her resilience and the impact of a nurturing environment.

After 633 days in foster care, she achieved permanency. In November, surrounded by the family who had loved her from the very beginning, she was officially adopted into her forever home. Her story is a powerful reminder of hope, perseverance, and the life-changing impact of a safe and loving family.

COMMUNITY

DANCING with Our Stars

In 2025, our 8th annual Dancing with Our Stars brought together 12 local stars, 12 dedicated instructors, and 3 judges for an unforgettable evening of dance and community spirit. Their hard work and show-stopping performances energized the crowd and highlighted the importance of our mission. Thanks to their efforts and the support of our community, the event raised an incredible \$266,977.88 to help stop abuse and neglect.

COMMUNITY

GHOST Tours

For the 31st year, the Exchange Club of Beaufort's Ghost Tours brought spooky fun to The Point and Downtown Beaufort, delighting 3,191 guests who dared support CAPA in this way. More than 240 volunteers devoted over 4,000 hours to bring the stories, carriages, and walking tours to life. We are grateful to The Point residents, our community, the Exchange Club, Southern Rose Carriage Company, Beaufort Charities, AlphaGraphics, local businesses, and the CAPA staff for making this year's tours a thrilling success, raising over \$46,000 for the children and families CAPA serves.

Christmas WISH

The holiday season is a powerful reminder of the impact a community can have when it comes together. Through CAPA's Christmas Wish program, children involved with child welfare services submit three wishes detailing what they hope to receive. Each year, those wishes are fulfilled through the generosity of the community.

Beginning in November, Christmas Wish trees are set up throughout the community by local tree hosts, who display trees filled with hanging tags representing each child's wishes. These trees, often placed in busy and welcoming spaces, invite community members to pause, reflect, and give. Along with a wish, each tag includes the child's interests, as well as clothing and shoe sizes when available, giving donors the opportunity to choose gifts that are truly meaningful.

From November through December, gifts poured in from generous supporters. In December, more than 100 volunteers, alongside CAPA staff, dedicated countless hours sorting, organizing, and preparing every gift for distribution.

Because of this collective effort, 582 children received personalized Christmas gifts in 2025. What began as a simple tag on a tree grew into something much greater—a shared commitment to ensure every child felt seen, remembered, and cared for during the holiday season.
